

Technical Specs. - Velvet Kills

Name	Instrument	DI	Mics
Susana	Vox / Bass	0	1
Harris	Guitar x 2 / Synth x 2 / Laptop x 2 / Backing Vox	2 - Passive	1

Requirements -

2 - XLR cable - to connect to FOH from our mixer.

2 - Mic stands

If FHO engineer is provided we will need a stereo monitor return either as 1/4"(6.5mm) pair or single 1/4"(6.5mm) TRS stereo for our in-ear monitor amp.

Additional Information -

We provide all instruments needed.

Though a FOH engineer is preferable, we do also have the ability to manage our own mix and monitoring.

Sound check should be scheduled before opening of doors. We understand that usually there are time constraints and for this reason we can be flexible but to provide the best listening experience for the audience and for the band we ask at least one hour for sound/monitor check.

Stage Plot
